

Pro Extend LSO

DCT-3951 The Pro Extend LSO is a technically advanced modular lumbar-sacral orthosis that stabilizes the mid to lower spine (T9- S1), providing superior posterior and lateral support and protection. Though similar to the Pro LSO, the Pro Extend provides additional anterior support and motion restriction creating an optimal healing environment for pre, post, and non-operative patients.

6:1 Compression Ratio

Revolutionary pulley system yields unmatched core compression

Highlights

- Motion restriction for pre, post, and non-operative patients
- Intracavitary compression for effective pain relief
- Customizable front and back panels
- Lightweight and low profile
- Breathe through mesh belt moisture-wicking lining

Indications

- Conditions requiring gross immobilization of the thoracic and lumbar spine
- Post-surgical immobilization
- Kyphosis
- Spinal stenosis
- Herniated disc
- Degenerative spinal fractures

Advantageous Design

Self-adjusts to each patient's unique lordotic curve, making it an excellent option for relieving pain and discomfort

PDAC Approved: L0639/L0651
